Lorin Yolch, PharmD, CGP

*Excellence in Pharmacy and Clinical Services . . . One Patient at a Time*

## **ProCare HospiceCare Vision Statement**

ProCare HospiceCare will drive positive change in end-of-life care as the premier Hospice Pharmacy Benefit Manager and Hospice Clinical Pharmacy Consulting Service.

## **ProCare HospiceCare Mission Statement**

ProCare HospiceCare will provide simply the best hospice patient focused medication-therapy-management and pharmacy benefit management services.

## **Disclaimer**

*The material in ProCare HospiceCare's Hospice Medication Utilization Guide is for informational and educational purposes only. It is not a substitute for medical advice, diagnosis, or treatment provided by a qualified health care provider. The editors and contributors of this Guide have made extensive efforts to ensure that the treatments, algorithms, drugs, and dosage regimens are accurate and conform to the standards accepted at the time of publication. Ongoing changes in information are made as a result of continuing research and clinical experience, differences of opinion among authorities, and the unique aspects of individual clinical situations. These ongoing changes require the reader to exercise judgment when making a clinical decision and, if necessary, consult and compare information from other sources. Accordingly, ProCare HospiceCare shall not be responsible for the choice of treatment or clinical decisions resulting from use of this Guide.*

*This Guide is intended for readers throughout the United States; however, you must comply with the laws, regulations, and statutes of the state in which the hospice is located and the federal laws regulating the practice of medicine and the prescription and use of drugs. The reader is also advised to check the product information provided by the manufacturer of a drug product before prescribing or administering it.*

*All information contained in this handbook is protected by copyright. All rights are reserved.*

# Table of Contents
