

ProCare HospiceCare

With our advanced technology and expert staff,
ProCare HospiceCare is able to offer clients a modernized and engaging experience.

Bringing a Personal, High-Tech Touch to Pharmacy Benefit Management

Hospice PBM Solutions

Experience counts when it comes to ensuring efficient access to hospice medications at the lowest possible cost. ProCare HospiceCare (PHC) is a leader in delivering exceptional value through our hospice-specific pharmacy benefit management services.

- Fully customizable formulary (preferred drug list)
- Unlimited EMR interface capabilities at no additional cost
- ProCarePrescribe, EPCS certified e.prescribe tool
- Medication access: mail order & local neighborhood pharmacy options

On Demand Clinical Services (ODCS)

On-Demand Clinical Services (ODCS) supports hospice clinicians through comprehensive one-on-one expert pharmacy consultations twenty-four hours a day, every day. Throughout the patient's hospice care, our ODCS pharmacists will provide consultations whenever there is concern about a change in patient symptoms, when medications need to be reviewed, or when there is a change in the location of care.

Conditions of Participation (CoPs) Compliance gives our clients immediate and unlimited access to comprehensive pharmacy consultations upon admission and throughout the course of a patient's hospice care – 24 hours a day, 7 days a week, 365 days a year.

- Collaborative recommendations from hospice and palliative care certified Doctors of Pharmacy
- Cost management recommendations
- Expert clinical support builds confidence for nurses new to hospice and enhances clinical staff retention
- Personal assistance and custom reports for quality assessment and performance improvement initiatives (QAPI)

Reports Portal

PHC provides a comprehensive reporting package to meet the specific needs of each hospice. Daily, monthly and quarterly reports can be accessed through our online reports portal. The quarterly Medication Cents™ report contains an analysis of specific hospice utilization and cost data focused on top areas for clinical and fiscal improvement. The report analyzes overall utilization as well as utilization by therapeutic category. Included in each therapeutic category is a data set containing a combination of medication utilization from hospice peers for comparative purposes.
