

Benefits of On-Demand Clinical Services (ODCS)

Virtual Pharmacist on Your Team

A group of our pharmacists at a recent event.

Our easily accessible hospice pharmacists help nurses improve patient care and reduce medication costs.

Direct, 24/7 access to hospice and palliative care pharmacists

Evidence-based, cost-effective clinical recommendations and drug information

Notifications of regulation changes, drug recalls, and shortages

Bi-monthly clinical news publication focused on hospice and palliative topics

Quarterly Medication Cents Report (MCR)

Medication cost data reports and presentations by a clinical pharmacist

Routine formulary analysis and updates

Pharmacy & Therapeutics review based on utility, safety, effectiveness, and cost

Monthly Conditions of Participation (CoPs) medication reviews

Meet Centers for Medicare & Medicaid Services (CMS) requirements

Interdisciplinary group or team (IDG/IDT) participation

Clinical pharmacist availability upon request

Expert Educational Offerings

Certified provider of CNE credits by American Nurses Credentialing Center
